WELCOME

Choosing made easy, by a family who knows windows

Emerald Interiors is a family business. Karen and Shaun McGrath have spent over 20 years helping homes across West Lancashire choose the right blinds, curtains and shutters.

There's a lot to choose from, and it can be hard to know where to start. This guide explains what each product does, what it's good for, what it isn't, and roughly what it costs, so you can narrow things down before we arrive.

Shortlist one or two favourites for each window on the planner at the back, and we'll bring those samples to your home.

> *"We believe in providing a truly bespoke service, where everything is made, measured and fitted by us."*

START HERE

How to use this guide

Choosing blinds, curtains or shutters is much easier when you know what's out there. This guide walks you through the same questions we ask on every home visit, so by the time we arrive, you've already got a shortlist.

1

Walk round your windows

Note each room and window you'd like to dress, and anything in the way: radiators, handles, deep sills or doors.

2

Shortlist one or two options

Use the chart on the next page to rule things out, then read the pages for the ones that appeal.

3

Fill in your planner

Tick your favourites on the planner at the back. Send us a photo of it before your visit if you like.

Why a shortlist helps

- We bring samples of what you've picked, so you see them in your own light
- Your visit is quicker and focused on the options you really want
- Your quote covers exactly what you're interested in

BEFORE YOU START

The four questions that decide everything

1 ### What kind of window is it?

A standard window, a bay, patio or bi-fold doors, a uPVC door you open every day, or something tall or awkward.

2 ### How much light and privacy do you want?

Total darkness for sleep, privacy without losing daylight, or simply softening the glare.

3 ### What's the room like?

Steamy kitchens and bathrooms, busy family rooms, children's bedrooms and sunny south-facing rooms all need different things.

4 ### What look do you love?

Soft and cosy (fabric folds, curtains) or crisp and tailored (slats, louvres, shutters). Modern or classic.

THE RANGE AT A GLANCE

What does each one do?

Rule out anything that doesn't do what you need, then turn to the pages for the ones left.

● Yes ◐ Partly, or with the right fabric or version — Not this one £ more affordable · £ a bigger investment

Only blind screens are 100% blackout. Blackout fabrics, closed slats and shutters block most light, but a little will always creep in around the edges.

WHAT THE ICONS MEAN

Blackout
Darkens the room for sleep (see the note above)

Privacy + light
Keeps people from seeing in, but lets daylight through

Adjusts light
Tilts or adjusts to angle the light without raising it

Water-resistant
PVC or water-resistant options for kitchens and bathrooms

No drilling
Clips into uPVC frames, so no holes

Cord-free
No cords or chains, safer around children

BLINDS

Roller Blinds

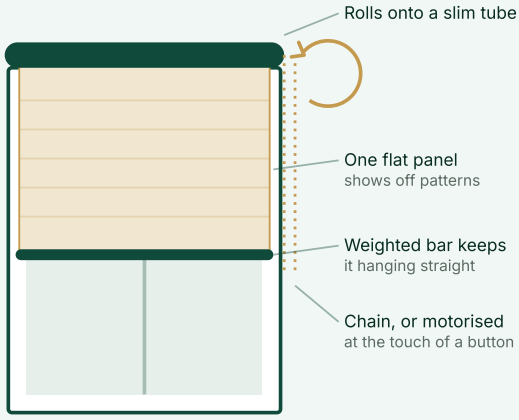

CRISP & SIMPLE

COST £££

Roller blinds are a single piece of fabric that rolls neatly onto a slim tube at the top of the window. They are the UK's most popular blind because they suit almost any room, come in hundreds of fabrics and are one of the most affordable made-to-measure options.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
Blackout fabric, not 100%	Light-filtering fabric	No	Water-resistant fabric	No	Motorised option

GREAT FOR

- ✓ Bedrooms (blackout)
- ✓ Kitchens & bathrooms
- ✓ Children's rooms
- ✓ Behind curtains
- ✓ Budget-friendly whole-house orders

NOT IDEAL FOR

Total darkness. A little light shows at the edges. For a nursery or shift work, see blind screens.

Angling the light. Rollers go up and down only. To tilt the light, see venetians or verticals.

PAIRS WELL WITH

Curtains. A blackout roller behind curtains: darkness and warmth together.

A pelmet. Hides the roller for a tailored finish.

Motorised. Perfect for tall or hard-to-reach windows.

YOUR CHOICES

Blackout · Dimout · Sheer & light filtering · Water resistant · Patterned & textured

AVERAGE PRICE

1200 × 1200 mm	1800 × 1500 mm

TONY W. · GOOGLE REVIEW

BLINDS

Vertical Blinds

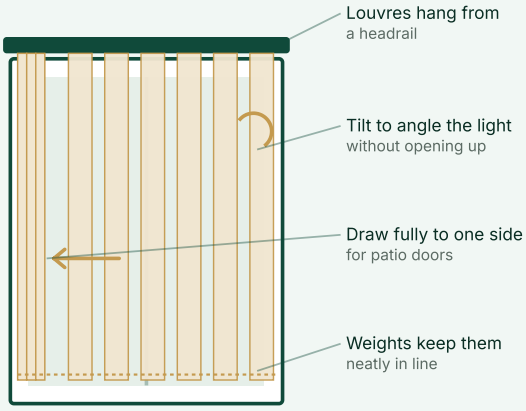

CRISP & PRACTICAL

COST £££

Vertical blinds are made of fabric slats (called louvres) that hang down from a track. You can tilt them to angle the light or draw them fully to one side, which makes them one of the most practical choices for large windows and patio doors.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
Blackout fabric, not 100%	Yes	Yes	PVC louvres	No	Wand option

GREAT FOR

- ✓ Patio & sliding doors
- ✓ Wide windows
- ✓ Bay windows
- ✓ Offices & conservatories

NOT IDEAL FOR

Total darkness. Light creeps in at the edges. For a bedroom, pair with curtains.

A soft, cosy look. For something softer on big windows, see Allusion blinds or curtains.

PAIRS WELL WITH

Curtains. Soften a wide window and add warmth at night.

Bay tracks. One blind can follow the shape of your bay.

YOUR CHOICES

Blackout & dimout

Wipe-clean PVC

Bay window tracks

BLINDS

Venetian Blinds

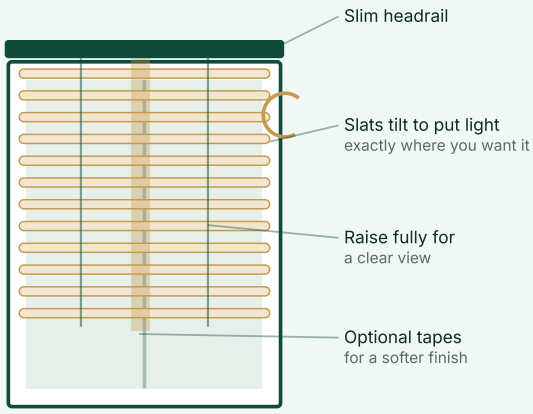

CRISP & TAILORED

COST ££

Venetian blinds are made of horizontal slats that tilt to control light and privacy. They come in real wood, faux wood and aluminium, and they're one of the best choices for kitchens and bathrooms because the slats wipe clean easily.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
Blocks most light	Yes	Yes	Faux wood & aluminium	No	No

GREAT FOR

- ✓ Kitchens
- ✓ Bathrooms (faux wood & aluminium)
- ✓ Home offices
- ✓ Modern living rooms

NOT IDEAL FOR

Total darkness. Closed slats block most light, but some gets through. See blind screens.

Real wood in steam. Choose faux wood or aluminium for bathrooms.

PAIRS WELL WITH

Decorative tapes. Hide the cord holes and soften the look.

Curtains. Precise light control by day, warmth at night.

YOUR CHOICES

Real wood · Faux wood · Aluminium · Decorative tapes

AVERAGE PRICE

1200 × 1200 mm	2000 × 1500 mm
£180	£380

Inc. VAT, measuring & fitting. Varies with fabric. Priced on real wood. Faux wood is usually a little less.

"Shaun came and fitted new Venetian blinds throughout our property, he provided a quote promptly and did a brilliant job, wouldn't hesitate in using Emerald again and would definitely recommend, thank you!"

ALEXANDRA N. · GOOGLE REVIEW

BLINDS

Perfect Fit Blinds

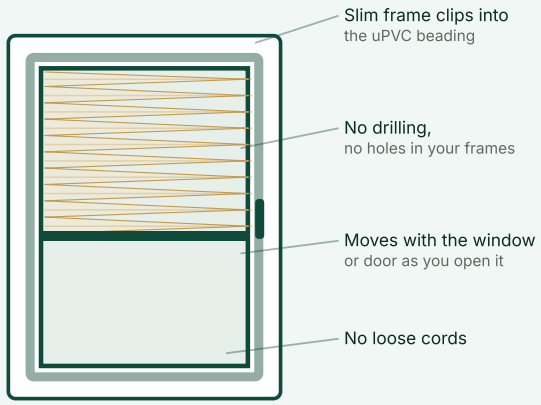

NEAT & MINIMAL

COST ££

Perfect fit blinds sit in a slim frame that clips into the beading of uPVC windows and doors, so there's no drilling. The blind moves with the window when you open it, sits close to the glass and has no loose cords, which makes it ideal for doors, tilt-and-turn windows and children's rooms. The same clip-in system is also available as perfect fit shutters.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
Blackout roller, not 100%	Pleated & venetian	Venetian version	PVC roller	Yes	Yes

GREAT FOR

- ✓ uPVC windows & doors
- ✓ Bi-folds & French doors
- ✓ Tilt-and-turn windows
- ✓ Children's rooms (no loose cords)
- ✓ Conservatories

NOT IDEAL FOR

Wooden or aluminium frames. They need uPVC frames with suitable beading. We check when we measure.

Total darkness. For a nursery or shift work, see blind screens.

PAIRS WELL WITH

Curtains. Dress the window while the blind does the work.

Perfect fit shutters. The same clip-in system with a solid, classic finish.

YOUR CHOICES

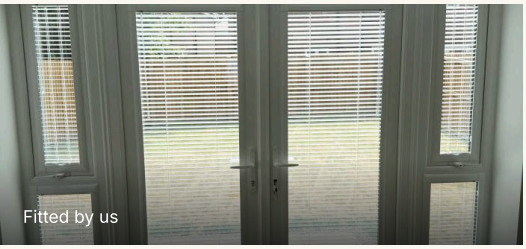

Pleated · Honeycomb · Venetian · Roller · Shutters

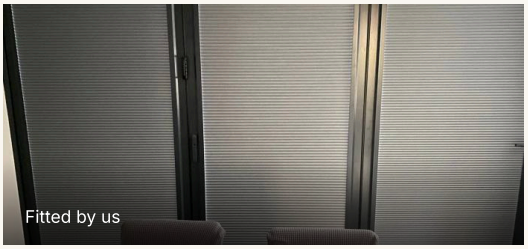

AVERAGE PRICE

	500 × 1000 mm	1000 × 1500 mm

BLINDS

Day & Night Blinds

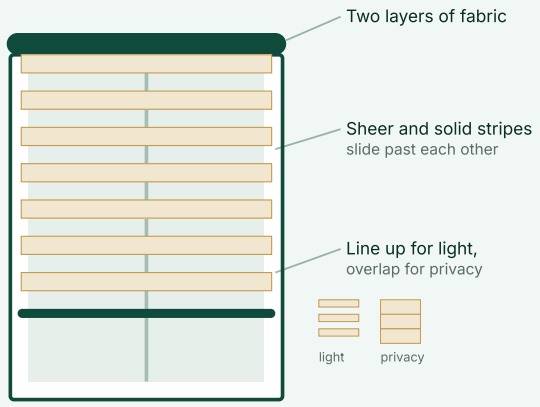

CLEAN & MODERN

COST ££

Day and night blinds (also called vision or zebra blinds) are made of two layers of fabric with alternating sheer and solid stripes. Moving the blind slightly lines the stripes up to let light through or overlaps them for privacy, so you can adjust the light without raising the blind.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
No	Yes	Yes	No	No	No

GREAT FOR

- ✓ Living rooms
- ✓ Street-facing windows
- ✓ Home offices
- ✓ Bay windows

NOT IDEAL FOR

Total darkness. They shade the room but aren't blackout. Pair with curtains in bedrooms.

Steamy rooms. Choose a water-resistant roller or venetian near a sink or shower.

PAIRS WELL WITH

Curtains. Privacy by day, darkness and warmth at night.

Bay windows. One for each section, adjusted on its own.

YOUR CHOICES

Plain & textured fabrics · Dimout options · Inside or outside the recess · Bay windows

BLINDS

Allusion Blinds

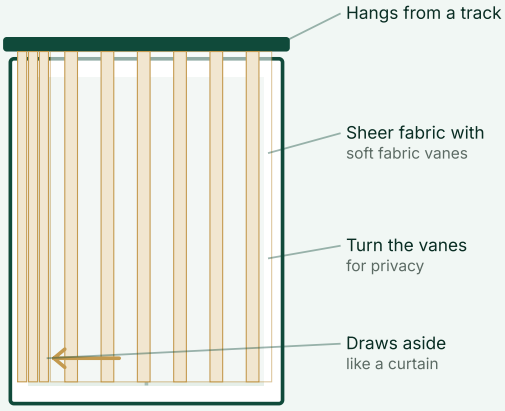

SOFT & AIRY

COST £££

Allusion blinds are vertical blinds made from sheer fabric with soft fabric vanes running through them. They look like an elegant voile curtain but tilt like a vertical blind, so you can move from soft, filtered light to full privacy.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
No	Yes	Yes	No	No	Wand option

GREAT FOR

- ✓ Patio & sliding doors
- ✓ Large living room windows
- ✓ Rooms where you want a softer look than verticals

NOT IDEAL FOR

Total darkness. They filter light rather than block it.

Wipe-clean needs. For a kitchen door, PVC verticals are more practical.

PAIRS WELL WITH

Lined curtains. Soft filtered light by day, darkness at night.

YOUR CHOICES

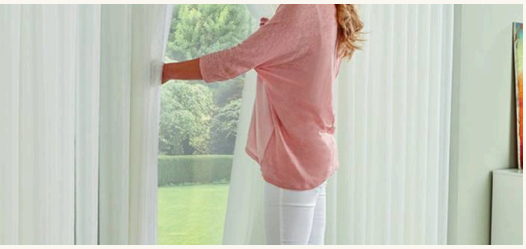

Neutral & white tones · Wand or cord control · Stack direction

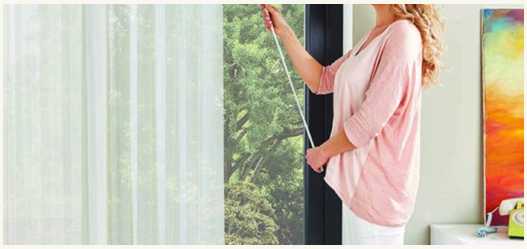

AVERAGE PRICE

1500 × 1500 mm	2500 × 1800 mm

BLINDS

Blind Screens

PRACTICAL

COST ££

Blind screens are blackout blinds set in a sealed frame that fits around the window, so no light gets in around the edges. They're the best option if you need a room completely dark: for a baby's nursery, for shift work or for a home cinema.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
100% blackout	No	No	No	No	Yes

GREAT FOR

- ✓ Nurseries & children's rooms
- ✓ Night-shift workers
- ✓ Home cinemas
- ✓ Light-sensitive sleepers

NOT IDEAL FOR

Privacy with daylight. They're made for darkness. For daytime privacy, see day & night blinds.

PAIRS WELL WITH

Curtains or a Roman blind. The screen blocks the light; fabric in front adds style.

Fly screens. Fresh air on summer nights, without the insects.

YOUR CHOICES

Blackout screens · Fly screens

SHUTTERS

Plantation Shutters

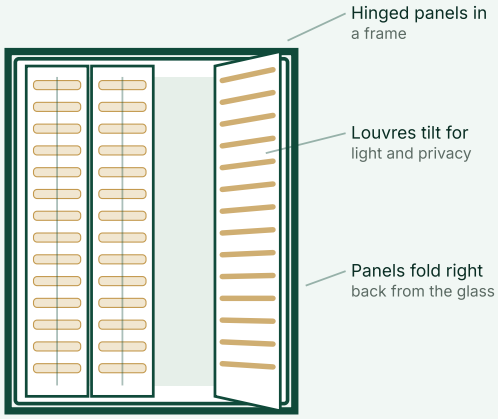

TIMELESS

COST £££

Plantation shutters are solid panels with tilting slats (louvres), fitted inside a frame around your window. You can tilt the louvres to control light and privacy, or fold the panels open completely. They're durable, easy to clean and give a timeless finish that adds to the look and value of your home.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
Blocks most light	Yes	Yes	PVC options	No	Yes

GREAT FOR

- ✓ Bay windows
- ✓ Street-facing rooms
- ✓ Bathrooms (waterproof options)
- ✓ Kitchens
- ✓ French doors

NOT IDEAL FOR

Total darkness. Closed louvres block most light, but not all of it.

Tight budgets. They're a bigger investment, built to last for years.

PAIRS WELL WITH

Dress curtains. Shutters for privacy, curtains to soften the room.

Tier-on-tier. Open the top for light, keep the bottom closed.

YOUR CHOICES

Full height · Tier-on-tier · Café style · Louvre sizes · Wood or PVC

SHUTTERS

Perfect Fit Shutters

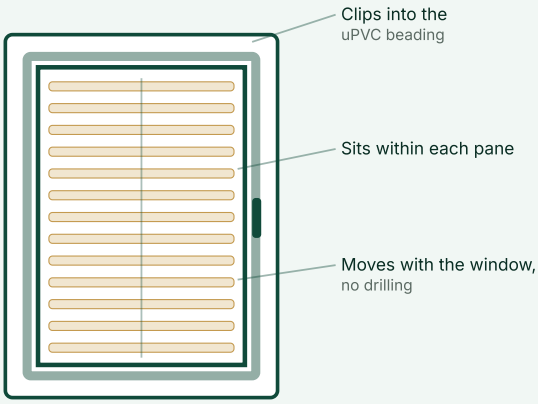

NEAT & CLASSIC

COST £££

Perfect fit shutters give you the look of plantation shutters in a slim frame that clips onto the beading of uPVC windows and doors, with no drilling. They move with the window when you open it, so they're ideal for doors and windows you use every day.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
Blocks most light	Yes	Yes	PVC options	Yes	Yes

GREAT FOR

- ✓ uPVC windows & doors
- ✓ French & patio doors
- ✓ Rented or new-build homes (no drilling)
- ✓ Kitchens

NOT IDEAL FOR

Wooden or aluminium frames. They need uPVC frames with suitable beading.

Folding back off the glass. They sit within each pane. For that, see plantation shutters.

PAIRS WELL WITH

Curtains. Add softness and warmth to a uPVC window.

Perfect fit blinds. The same no-drill system in other rooms.

Roman Blinds

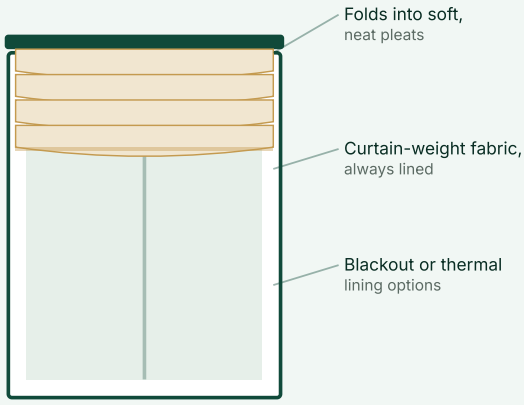

SOFT & TAILORED

COST £££

A Roman blind is a fabric blind that folds into neat, soft pleats as it is raised. It gives the cosy, tailored look of curtains but sits within the window, which makes it ideal for smaller rooms, kitchens and windows above radiators or worktops.

HOW IT WORKS

BLACKOUT	PRIVACY + LIGHT	ADJUSTS LIGHT	WATER-RESISTANT	NO DRILLING	CORD-FREE
Blackout lining, not 100%	No	No	No	No	No

GREAT FOR

- ✓ Living rooms & bedrooms
- ✓ Windows above radiators or worktops
- ✓ Pairing with matching curtains
- ✓ Cottages & period homes

NOT IDEAL FOR

Steamy rooms. Choose a water-resistant roller or venetian in shower rooms.

Total darkness. Blackout lining blocks most light, but a little creeps in at the edges.

PAIRS WELL WITH

Matching curtains. The same fabric for a co-ordinated room.

Dress curtains. A Roman for light control, curtains to frame the window.

YOUR CHOICES

Standard lining · Blackout lining · Thermal lining · Matching curtains

Still not sure?

That's exactly what the free home visit is for. We'll show you the options side by side at your windows.

01704 894699

THINK ABOUT THE WHOLE WINDOW

Mix & match

Some of the best-looking windows use two things together: one for light and privacy, one for softness and style. Here are the combinations our customers love most.

Roman blind + matching curtains

The same fabric for a fully co-ordinated room. The Roman does the daily light control; the curtains frame the window.

Shutters + dress curtains

Shutters for privacy and light, curtains to soften the room and add warmth on winter evenings.

Curtains + a pelmet

A fabric pelmet hides the track and gives a beautifully finished look, especially across a bay.

Curtains + a shaped bay track

A track bent to the exact shape of your bay, so the curtains draw right round it and frame every window.

MORE GREAT PAIRINGS

Blackout roller behind curtains
Darker bedrooms, with the warmth and look of curtains.

Voile + lined curtains
Privacy by day from the voile, warmth and darkness at night. A double track takes both.

Blind screen behind a Roman
Total darkness for a nursery, with a soft fabric look.

YOUR FREE HOME VISIT

Getting the most from your visit

How long a visit takes depends on how many windows you're having done. A little preparation makes it quicker, easier and much more useful for you.

WHAT HAPPENS

1

We arrive with samples

Including the ones on your shortlist, so you can see them in your own light.

2

We look at each window

We talk through what you want for each room, and check what will fit.

3

We measure precisely

Every window is measured by us, so the fit is our responsibility.

4

You get a clear quote

An itemised price on the day. No pressure, and no obligation.

HELP US HELP YOU

Your visit works best when...

- ☑ **Everyone who's deciding is home**
  So nobody has to hear it all twice, and you can choose together.
- ☑ **You tell us what's already sorted**
  We'll focus only on the windows you want us to look at.
- ☑ **We can get to the windows**
  A clear path to each window makes measuring quicker.
- ☑ **Your planner is filled in**
  Even a rough shortlist means we bring the right samples.
- ☑ **You have a rough budget in mind**
  So we can show you the best options at the right price.

AFTER YOU ORDER

Everything is made to measure, so it's made after your visit. Here's roughly how long from measure to fit. We'll confirm the timescale with your quote.

Blinds ~2 weeks	Curtains & pelmets ~3 weeks
PVC shutters 4–5 weeks	Wooden shutters ~12 weeks
